

React Admin Dashboard

14-08-2024

Name: Jessita Hannah Selvi

Contact No: 8608700839

Email id: jessitahannahselvi@gmail.com

Project Description

strong foundation in JavaScript, React, and TypeScript. I am currently working on a React Admin Dashboard project, which has helped me build a solid understanding of component-based architecture and state management. My experience includes UI/UX design with Figma, where I create user-friendly and visually appealing interfaces. Additionally, I have a good grasp of HTML and CSS, along with proficiency in Python, allowing me to contribute effectively to various aspects of web development.

Skills and Competencies

JavaScript, React, TypeScript: Mid-level experience in developing interactive web applications.

HTML & CSS: Competent in creating responsive and structured web designs.

Figma: Skilled in designing intuitive user interfaces.

Python: Capable of general-purpose programming and scripting.

Project Focus: Developing a React Admin Dashboard, including essential features like user management and data visualization.

Objective

Seeking an internship opportunity where I can apply my mid-level skills in front-end development, particularly with React, to contribute to a collaborative team.
